Interactive comment on “Regional feedbacks under changing climate and land-use conditions” by L. Batlle Bayer et al.

I. Harman (Editor)
ian.harman@csiro.au

Received and published: 1 November 2012

Editor’s final decision: REJECTED

Reasons for decision: 1) Failure to address the reviewers’ comments to the satisfaction of the handling editor. 2) A lack of a clear objective and quantitative basis for the analytical framework developed.
